01 · ABOUT

PROFILE

ONE PERSON FOR THE WHOLE CHAIN: FROM IDEA AND STORYBOARD TO EDIT, MOTION, SOUND AND DELIVERY.

Over 7+ years I have worked at four companies. Three years were in AI video: face replacement (deepfake), lip-sync and AI voice-over. The rest was motion design and editing for news and social channels, advertising, YouTube and interior studios. I work to brand guides and templates, deliver on time and keep projects and source files tidy.
